Scammer Profile link : <https://hackforums.net/member.php?action=profile&uid=973634>

Exchange Thread : <https://hackforums.net/showthread.php?tid=5887804>

Contract Link : <https://hackforums.net/contracts.php?action=view&cid=10097>

All this happened Before 20 days When Doctor Doom Opened exchange thread. His Profile was Clean without any deal dispute and had High Rep so I went first with him.

I have send 233\$ Paypal to be exchanged to BTC : <https://prnt.sc/kxsdfm>

As soon as I send the payment Op started Crying like a baby that his Paypal account got limited and he is our with his family, he will call Paypal as soon as he gets home. His Profile was clean so I agreed to wait for next day. : <http://prntscr.com/l5q0dz> , <http://prntscr.com/l5q0nm>

The next day he PM me saying that paypal is taking time, if Its not fixed within 24 hrs then he will ask his friend to send my Money back to Paypal. But 20 days has passed till that day and I have not received my BTC not refund of my Paypal.

All this took place on 24 of last month.

Damn, yeah and he hasn't been logged on since the 25th of September that sucks. I really thought it was just a mixup reading through the messages but sure enough looks like a scam.

I'm sorry to hear that man, sorry for your loss of money that's terrible but thank you for letting the community know.

Why didn't you put the BTC address in the Contract? I'd be able to see he didn't pay.

But he's closed now as I read the PMs between you.
