(Oct 16, 2018 11:48 PM)?usiness Wrote: [\[CITE\]](#) Welcome to My Exchange Desk!

I offer quick and easy transactions at a low rate. I currently deal in Bitcoin and Paypal. I'll be adding Ethereum soon. More options may be added later.

All of my exchanges are INSTANT. I won't request or accept your payment until I am ready to send mine in return. Nobody wants to send their half, and then wait forever for the exchanger to get online! I know the feeling, it SUCKS.

With my service there is no hassle, no worry, and no waiting around for that special PM saying "Sent".

Here are my rates (subject to change):
(if there are Paypal fees, they are paid by the buyer)

Your BTC --> My Paypal = 1:1

Your Paypal --> My BTC = 15% fee

I will not go first under any circumstances. Please don't ask me to.

However, if you'd like to do the deal in increments to make sure I am trustworthy, I am more than willing to do so.

Terms of Service:

I reserve the right to refuse service to anyone, for any reason.

You cover all fees.

Any issues with the exchange on your end will result in a Deal Dispute and further action if available.

I expect customers to be respectful of me, and my time.

No deals will be done offsite. If you get a message from "me" anywhere but on Hack Forums, it's not really me. Report the

person to me and I will handle it.

No deals will be done without a contract being opened. This is best for everyone involved.

Please PM me before starting a contract:
