Thread: [Trust scan for l33t](#)

Pyro - October 18, 2018, 6:00 pm

Just noticed Omni allowed l33t users to have trust scan, which I think it's the best feature on forum, so I wanna thank you, keep up the good work

Ah I see. He probably did this because epic is no longer an upgrade.

Think he said going back that it was to make epi3c unique. Each group should have its own qualities.

That's a wholesome update! Let's see whats more feature to be added on L33T group.

Omniscient - October 18, 2018, 8:30 pm

I have a list of things to alter to the upgrade page for features.

Set Search Limit for l33t to 5 seconds
Set 2500 PM box for l33t

Make PM box for r00t 10k
Add Favorites feature to r00t
Max Post Length for root to 30k
Post flood limit set to 5 second for r00t

Nice one, i have wondered why L33T didnt have the trust scan thing, it seems like a good quick tool to check peoples "backgrounds" before a deal or in general.

Thanks for adding that Omniscient. :)

I'm indeed glad that us L33Ts have the opportunity to use the trust scan finally

Omniscient - October 20, 2018, 9:11 pm

All the features should be adjusted. The upgrade page should reflect new features for the groups. Also added Slots, Blackjack, and Crypto Game to the Extras page.
