Thanks again man I really appreciate it.

UPDATE: Zidy got my 3 page essay done in 1 day, the quality of this is sure to get me a 100. Zidy was very professional about everything and delivered this essay a day before he said he would, (which was 2 days before I said I needed it) not to mention the price is literally UNBEATABLE. I got quoted by two other users that have been doing this for a while wanting almost double what he charged.

I give my full vouch for this service as well as this user. Thanks so much again!

Zidy does great work at an amazing price! He was professional throughout the entire process and very considerate towards my individual needs. I would 100% recommend him and his work.

illilli ILLU?IVE illilli - December 7, 2018, 3:01 pm

I'd like to also point out that Zidy is relatively new to this service and therefore doesn't have as many customers as many of the other people that have been doing this longer. This DOES NOT MEAN that he isn't experienced, the quality of his writing surpasses other competitors in my honest opinion. Also, because of Zidy not having many customers, he can put his full attention into your paper and in return you end up having a much higher quality paper than some of his competitors that do 5-10 papers at a time. This should most definitely be considered when looking to get a paper written. I give my full vouch for Zidy as he is very professional, on time, and attentive to quality.
