Thread: [\[\\$4.99\] Easy Money on Fiverr - \\$100 a week MINIMUM \[NICHE\]](#)

TheChaosKiller - October 19, 2018, 12:42 pm

-

Just like the ad says, this is a tried and tested (by myself, thoroughly) Fiverr method that will see you getting earnings of at least \$100 a week if you follow the guide and selling style. This method is very niche, is unsaturated, and will snowball over a relatively short period of time.

I will provide one vouch copy to a L33T or UB3R user.

Just click on the image to buy the method itself, or send me a PM regarding the other packages, or for paying by AGC.

Proof of earnings since June, 2018:

fatcunt999 - October 21, 2018, 2:12 am

can you tell me more about this ?

S3AR - October 21, 2018, 5:00 am

I can leave a vouch if you want

isu - October 21, 2018, 5:13 am

If there's a vouch copy available, I can take that for a review.

TheChaosKiller - October 21, 2018, 10:07 am

Sent out one vouch, currently waiting on a review but if I don't get it by the end of the day I'll pick another for a vouch review. Thanks for your interest so far!

SIM-955290 - October 21, 2018, 11:01 am

Sounds interesting. If you need detailed review, hit me up :)

Ramsey - October 21, 2018, 11:03 am

Can give you a genuine vouch. I freelance on Fiverr and am actually very interested to see which niche this is.

TheChaosKiller - October 21, 2018, 2:20 pm

Given out the final vouch copy, waiting for reviews from that and from two buyers should they wish to contribute to the thread.

SIM-1763262 - January 4, 2019, 9:41 am

Any reviews from this product? I'm interested

Those I gave out vouch copies too were nothing but lurkers and leechers who ran off with the methods and never responded, which is why I no longer offer vouch copies regardless of the effect on sales. There should be reviews coming in, but either way, \$4.99 isn't much to risk for a good method!

That would be appreciated, and I can assure you that you'll earn using this method.

AnneSang - January 4, 2019, 4:34 pm

Ok so i bought this and from what i can tell it seems the OP made a few mistakes where the pages were split in half and most of the e-book

Was kind of unreadable. In some instances the steps go from 1-2 to 5-6 without mentioning 3-4..

The book needs a little more work on it from

What i can tell you might wanna do a little more research into conversing and generating PDF's no offense man.

Nebulance - January 4, 2019, 5:55 pm

Bought this, let's see how it goes :)

Same issue, ebook completely unreadable.

If you can send me your email address, I'll send you the PDF as is, which has no errors. This is the first I've heard of any formatting errors, as every other one has gone fine.

Something must be wrong with Rocketr, as this is a very new issue. If you can send me your contacts, I'll send you the file direct.

Ill IM you right now and send a screeny of the issues

limb3r - January 6, 2019, 2:56 am

Would like to get this if you've resolved the formatting.

Does it work everywhere or is it location-dependent?

Just emailed you the correct version, my apologies again.

Formatting appears to be an issue with rocketr, but I'm happy to do a direct sale via PM (with contract if you wish) so we can ensure the correctly formatted file gets to you properly. And it'll work absolutely anywhere, you could literally be in a shed in the middle of a field in the middle of nowhere, as long as you have internet, it'll work.

AnneSang - January 6, 2019, 7:07 am

Ok... I've read this entire thing and i gotta say.. It's something out of the realm of normal.. Not in a bad way but the method is unique in its own. The idea behind it and the way you can use it will more then likely work as i know not many people use this marginal niche... Let's just say its the method that people rarely go by because their afraid of something new.

That being said yes you are going to make a few sales but it takes some effort and some real hard grinding to actually do if you want to make it big on fiverr. I myself haven't really tried it as you know i don't really use fiverr for nothing more then buying gigs but this is something new sellers should take a shot at. Oh, not to mention you really really only need to be very creative for each new way you do this..

Other then that i can say i was satisfied with the way the seller has pitched and put this method out..

TheChaosKiller - January 7, 2019, 1:11 pm

Thanks for the feedback, AnneSang! This method will definitely help you earn on Fiverr in this specific niche, which is wildly popular with customers but not so much with sellers. You only need to be creative the first couple of time as then it becomes a mostly copy and paste deal, but it's definitely worth trying out to scoop some sweet profits.

eldanielsantos716 - January 20, 2019, 7:45 am

Is it necessary to have a specific skill? Do you have to invest? Do you have to create a product or book? from 1 to 10 how hard is it? Is it necessary to talk or convince people? still works, be honest please

No specific skills needed. It can help if you're a creative writer, but it's not necessary at all.

You don't have to invest, you can buy an aged Fiverr account if you wish but this is perfectly fine to do with a new 0 day account.

You don't have to create a thing. Everything you need is in the ebook.

From a scale of 1 to 10, I would say a 4. It's easier than any other Fiverr method.

You need to convince people, but in order to do so, all the info you need is in the ebook. It's that simple.

It works really well, and always will due to the nature of the niche.

Since only one person left a vouche will leave a vouche in saying its pretty neat and doable but his PDF is broken and only has half the words on screen so i may have missed a few parts.

(Only 4.99 so thought id check it out)

Hey, the issue appears to be with Rocketr, when they go to autodeliver the PDF it's corrupting somehow. I can only apologise as I wait for them to sort it out somehow. If you PM me your contact, I'll send you the proper file so you can follow it correctly.

I would like to update my original review.

After a lengthy wait on a fixed copy which would not be hard as he responded the day of purchase and it's very obvious you do not get many buyers based of the amount of posts. You said you sent updated cypys out to everyone yet i never received one. My ability to PM is not available so i waited for you. I then went and opened a claim as the Rocketr Bug made it unreadable so technically i had received a nonworking guide (Aka item is not described).

I'm not gonna make a post shaming you and what not as at the end of the day we all make mistakes and the sites we sell through do as well.

BUT

(Retracted due to bias/improvable argument made against him)

BUT

immediately sending me a email threatening to "Find me" or Dox me is not a good way to handle a customer who is looking for help. I did immediatly request a refund as I received a item that was not as described hence immediately me thinking a LQ scam.

As I just replied on PayPal, I have offered twice now to send you the fixed PDF, and wasn't aware of which account you were buying from due to the many different names and having to keep track of sales from this forum, others and Skype/Discord. I still can't understand what's going wrong with Rocketr, I've messaged multiple times asking for a fix on the bug. But, if you give me your email address, I can send you the proper version.

Also, as mentioned on PayPal too, I don't know what threats you're referring to as I only sent one message via Rocketr and there were no threats involved. I think you're mistaken.

I may be mistaken so I will gladly edit out that until I can find more evidence. I would've loved a updated version but it's been to long for to care at this point and its only 4.99 We'll just let it run through escalation unless we can make a compromise off site? I cannot login to rocketr. You know my email message me there.

(Aswell i won the escalation but do not let that deter you as he does speak buisness and I can tell if I still cared enough to sell like I use to on other sites id easily work along side him.)

I've responded once again by PM on here instead this time, but noticed that the claim was closed in favour of both of us, which is actually quite rare for a seller not to be debited after the fact.

I'm still really quite confused, and borderline concerned, about all of this as I really do not know what threats you're referring to, only the abuse and hate speech I received after this all began. If someone is ever claiming to be me, please be aware that I only communicate via Discord or Skype,

and only after speaking on the site first so customers are aware they're talking to the correct account.

Business is a passion of mine, and I work hard to make sure that if anyone buys off me, they get what they paid for and get my support to earn themselves too. I hope others that see these posts understand that this must be some kind of blip, and does not reflect upon my day to day selling or business practices.

This method is still earning well in February, 41 sales for myself via this method alone and 20+ pleased clients across various forums. Please feel free to message if you have any questions, and let's get that cash!
