Thread: [Ub3r user uses L33t account to scam \[Proof inside\]\[This guy is a jerk\]](#)

YuDoDisToMe - October 20, 2018, 9:29 am

I wouldn't be posting this without thinking beforehand, obviously it's not a coincidence i mean if i would know the ub3r member or if i had ever spoken to him i would say sure why not.

Let me begin by saying how it all started : This user uid=3891975 Spoiler ([Click to View](#))

<https://hackforums.net/member.php?action=profile&uid=3891975>

(here you can see he posts all over the marketplace Spoiler ([Click to View](#))

<https://hackforums.net/search.php?action=results&sid=124a44f4770846525d93f09d691deef8>

posted on a thread saying that he buys agc, i saw it and contacted him about my 80\$ amazon egift card to sell and i mentioned obviously that i won't go first to him since he had 3 disputes opened and he replied to me ignoring this and keep saying that i should go first lol

I don't know if i am allowed to show my PMs (if yes let me know so i can update with screenshots).

After that i posted as a reply on a thread where he posts saying "DWC user has 3 disputes opened" (see that here Spoiler ([Click to View](#))

<https://hackforums.net/showthread.php?tid=5897098&pid=57732800#pid57732800> so people can see it and maybe prevent some scams.

anyway i leave the pc and grab some food, coming back i found out this

I got a neg reputation from a member i've never talked before lmfao

This ub3r : Spoiler ([Click to View](#))<https://hackforums.net/member.php?action=profile&uid=2307853>, completely randomly. You will say "okay he just randomly did it okay why not there are some jerks" but wait lmao, facts :

1. I've never talked to him before
2. He negged me 6 minutes exactly after the one i DWC on thread user logged of his account

Proof : 29 minutes before last login <https://imgur.com/a/ciwQzHp>

Proof2 : random -3 6 minutes after which means he had enough time to either reset his modem with his dynamic IP or logout and do the work lmao <https://imgur.com/a/JDmObhH>

Well that's not enough proof but wait i have some more, i tried checking out the way they both write and as you can imagine they BOTH write the same fucking way.

Both using same structure, commas etc, see yourself.

Proof L33t : <https://imgur.com/a/W4hYf5D>

Proof Ub3r : <https://imgur.com/a/O2evChg>

I tried messaging this guy telling him i know he is the l33t, obviously he denied it and after i told him why the neg random rep he never replied LMAO

And again i have proof and if im allowed to show my PMs ill upload pics.

Please i would want an admin to take a look at this.

vaxton - October 20, 2018, 9:33 am

nice catch, hopefully what you are saying is true.
lmk any updates.

lmk any updates. Proof is enough, someone would assume it's a coincidence but it's obviously NOT one.
I hope an admin can check this

Why do you hope that?

vaxton - October 20, 2018, 10:59 am

(Oct 20, 2018 10:29 AM)Juffar Wrote: [\[CITE\]](#) Why do you hope that?
Because its not the first time, ive seen many popular members making new accounts and scamming using them by upgrading it.

Yes and why do you hope this user is doing that?

vaxton - October 20, 2018, 11:12 am

I said hopefully its him, so he don't do it anymore.

VmX5 - October 20, 2018, 11:57 am

This is the reason why I negged you:

<https://hackforums.net/showthread.php?tid=5897133&pid=57732485#pid57732485>

Creating fake shit about me wont really change anything. Check my trustscan?

Your so called "proof" really isn't definitive proof. Just because more than 1 person doesn't like you doesn't mean we're the same person.

I apologize for him wasting your time. I've PMed a mod about this and hopefully(?) this will get taken down soon.

BTW: (thanks for calling me popular =3)

his trust scan seems clean.. it might be a misunderstanding.

VmX5 - October 20, 2018, 12:05 pm

I also like how your proof included our correct use of punctuation and grammar. I actually chuckled at that one.

(Oct 20, 2018 12:05 PM)vaxton Wrote: [\[CITE\]](#) his trust scan seems clean.. it might be a misunderstanding.I can give you 1000 ways of having a clean trust scan and having multiple accounts.

He didn't give me the neg because of this shitty thread.
Too much of a coincidence

Too much of a coincidence

I legit just told you why I negged you. It was because you said to get a Macbook (Rep really isn't that serious.).

You still haven't provided any real proof.

Too much of a coincidence

It's too much of a coincidence that two users gave you minus reputation and two have good grammar from the tens of thousands of active users who use this site?

Even if true your counter argument is poor OP.

Even if true your counter argument is poor OP.I use also the timeline this occurred.

My post was done MUCH time ago (6 hours ago)

all this occurred exactly almost same time after i did warned other users and said the L33t account retarded for expecting me to go first.
