Thanks :)))Nope you can't buy l33t with bytes. Feel free to send them to me though.

And ldk, maybe contact support.

The only way you can get your account upgraded is by using BTC. You can look in the currency exchange part of the forum

For the second situation maybe you could just do what he said and contact support ^

Almonds - October 20, 2018, 11:25 pm

You could try to sell your bytes and buy BTC, or sell them directly in exchange for l33t.

Otherwise, no. Not sure on your other problem, I know you can change your email though..

LoveOverFear - October 20, 2018, 11:26 pm

Ugh.... Really?? Whats the point of bytes exactly??? :(((

And can someone tag a mod so i can talk to them?? I hate looking for anything in such a huge site :(((

Shabayaa - October 20, 2018, 11:28 pm

Man try and contact support as they said but always keep your emails safe

Dude i was masking myself when i got on here about 2 years ago cause i thought the site wasn't gonna be good.

But it is and i want to add my real email without needing to verify from the one i forgot.

This is wack :(

Yeah, this site is wayyyyyyyyy better than b4, it's not even funny.

I could care less about the scammers now, just got to be smart :))

So bytes are only good for gambling??? :/

Damn that's kinda lame. I would love to trade my bytes for an l33t membership if possible but i don't even know if it's possible or if there is a conversion for it.

It might take a while then cause i'm at like 600. I mean it might take a few days and i'm about to go to sleep in abit.

Will you remember about this within 3-5 days?? I'll post like crazy just to get l33t, i want to post an avi here & probably change my name.

Thanks.
