Thread: [Bytes Question](#)

Unkn0wnUs3r - October 21, 2018, 3:21 am

Maybe I'm just being stupid, where is the link/icon to get to the bytes page? I was expecting there is a page with all of the games/lottery etc. Can't seem to find it...

Just returning to HF after a long break.

Click on History and you'll see your bytes page if that's what you're looking for?

You can find all the games under the extras.php.

There's a lot of new features coming for Bytes, I recommend you saving it instead of gambling it away.

..... or try your luck and get 50x the amount of bytes you have right now.

I guarantee you this is pure gambling effect, the house always wins.

Try out the CryptoGame of bytes.

They'll probably be in the extras section, up at the top.

Omniscient - October 21, 2018, 9:52 am

I plan on adding a more comprehensive hub page for Bytes with the games and features. Only this weekend did I add some of the pages to the Extras page.

Actually blackjack pays out. You just have to know what you're doing.

Well what do you expect them to do? They are an internal rewards point system.

You can save them, gamble them, invest them, or send them.

It will be a nice idea to bring all bytes features in ONE place
