Hello Guys I'm selling DotA 2 Hack for easy MMR. I just became Divine 5 Thanks to it.

These are the following Hack Features

Ability Alerts

- Ability Cooldown ESP
- Aggro/Deaggro Creeps
- Auto Accept Matches (automatically accepts games)
- Auto Culling Blade (kill stealer, blinks in if it can too)
- Auto Dagon (killstealer, will also combo with Auto Reaper's Scythe)
- Auto Disabler (automatically uses spells/items that can disable enemies when they initiate)
- Auto Finger of Death
- Auto Harasser
- Auto Laguna Blade
- Auto Mana Void
- Auto Meld (automatically uses Meld before attacking on Templar Assassin)
- Auto Phase Boots (automatically uses Phase Boots off cooldown, only when moving)
- Auto Pudge Hook (uses prediction to hook an enemy, and combos with various items and abilities)
- Auto Queue
- Auto Reaper's Scythe
- Auto Remote Mines Detonator (uses minimum amount to kill a hero. Uses Force Staff too)
- Auto Rubick Ultimate Spell Steal (steals spell from nearby enemy if their last spell was an ultimate)
- Auto Stacker (will automatically stack the desired camp(s) with your selected unit(s))
- Auto Sun Strike Stunned Enemies
- Auto Zeus Ultimate (kill stealer)
- Automatic configuration saving/loading
- Camera Hack (zoom out beyond the maximum distance)
- Custom Range Effect (lets you display a custom range circle of your choosing around your hero)
- Cooldown Display
- Deny (default key C)
- Efficient Duel for Legion Commander (casts her W, blinks in, uses items like BKB, Blade Mail, then Duels)
- Euls Combo Helper for Lina
- Euls/Tornado Combo Helper for Invoker
- Illusion ESP (makes the real hero glow yellow and float in the air)
- Last Hit (default key X)
- MP Recovery Abuse (automatically drops mana items when using Arcane Boots, Magic Stick, etc...)
- Mana Bars / Mana ESP (displays mana bars on enemy heroes)
- Medallion / Crest During Attack
- Mine Destroyer

- Orchid During Attack
- Rune Snatcher (grabs a nearby rune as soon as possible)
- Shadowraze Aimbot (default key V)
- Show Hidden Spells (shows effects on enemy spells that otherwise wouldn't have them, like Invoker's Sun Strike)
- Show Neutral Spawn Boxes
- Spirits Aimbot for Io/Wisp
- Storm Spirit Helper (tries to keep Overload up efficiently)
- Treads Switcher (tries to switch your treads based on the situation, int when casting a spell, agility when using a bottle, etc...)
- User Scripts (Lua)
- Visible to Enemy ESP (displays an effect on your hero if you can be seen by the enemy, even if you don't have vision of what's seeing you)
- XP Monitor (shows how many enemies are around a creep that was killed)
