Thread: [BlackJack Max Bet 500 Bytes](#)

Omniscient - October 21, 2018, 2:46 pm

The previous Blackjack max bet was 100 Bytes. I have increased it to 500. Enjoy. Thanks.

Juffar - October 21, 2018, 2:48 pm

I actually thought about suggesting a raise of the max bet yesterday. Cool!

Is there a reason why it's set to 500 (previously 100) and not like 10k? Is it to prevent people from "easily" winning ridiculous amounts of Bytes, almost leading to saturation?

Lavish Living - October 21, 2018, 2:49 pm

I literally just posted a thread about this haha, saw it from your bytes history...

This'll be nice for @Cameron, hope he loses all his bytes! haha

Zeus - October 21, 2018, 2:49 pm

Just posted a couple minutes before this thread, glad it was finally updated!

Yin Yang - October 21, 2018, 2:50 pm

That's cool... I bet Cameron will be happy lol

DashPHP - October 21, 2018, 2:50 pm

Awesome change, and I guess the limitation will increase over time too ?

R4A1 - October 21, 2018, 2:51 pm

I might try blackjack out, not sure how it works though.

Damnnnn.

Omni wants all of them bytes boys so serve them right up lol. The man's a genius.

SIM-403479 - October 21, 2018, 3:08 pm

Ah this was definitely needed. Might give it a go tomorrow.

Omniscient - October 21, 2018, 3:12 pm

I'm not going to make it more than the 500 Bytes it is. The 100 was just to test it out and I always intended to make it 500. I think it's a very reasonable max bet.

4char - October 21, 2018, 3:15 pm

Fuarkk I keep loosing so much money lol,

BookOfRa - October 21, 2018, 3:18 pm

Good change, thank you. Will you add some new games in the future Omni?

Down 13k already fml. I've never gotten so many 12 or 13 hands while the dealer was hitting straight 20's.

I kept getting shit hands where I either have to risk a bust or hope the dealer doesn't get more than a 12 lol.

Dealer keeps getting straight 21's. Shits rigged ?

Worst hands of my life today aye. Think I'm gonna cut my losses for today and try again tomorrow.

some things also wrong with the tracking of bets/wins cuz i started today's session with 62k bytes so if I was up roughly 10k, I'd be at 72k... not 55k lol

If I had your bytes I would just hang on to them and see what else Omni adds that you can use bytes for. These games are straight rigged haha.

My 500 bytes slowly starts to cry ?

I'll definitely be holding a nice amount for future updates. Crews are what's holding me back from grinding BJ more.

I already withdrew all mine from cryptogame. Either going to sell this 55k for \$500, or buy a crew myself.

I think the max bet should scale with the market.

$$[\text{Max bet}] = ([\text{Total Registered Users}] / [\text{Total Bytes}]) / [\text{Number of people playing}]$$

i doubt it can be something dynamic like that. unless you mean someone manually updates it daily... thats just unnecessary work.

500 is plenty

Maybe so, just suggesting something so he won't have to fiddle with it all the time. Once he finds a good formula that works he won't need to do anything.

I believe he stated that this jump to 500 is final. And he doesn't plan on increasing it anymore

Ah didn't know that. Thanks for the information.

WageWolf - October 21, 2018, 8:09 pm

Just lost 8,500 bytes. This was deff. not in my favor. :(

Traum - October 23, 2018, 12:30 am

I know quite a few people that are definitely going to make use of it! Very good change in my opinion.

Ombra - October 23, 2018, 1:14 pm

After looking at Business winnings, I guess this is an appropriate change ?

Norg - October 23, 2018, 2:49 pm

Very reasonable max bet, keeps everything inline with growth.

iNviZ - October 23, 2018, 8:24 pm

Nice I like this increase. As long as I don't drink and play I will be fine. Lol

Nate - October 23, 2018, 8:44 pm

I just lose more and more bytes everyday. I wish I had the gambling gods on my side, idk how people win so much smh.
