Thread: [Bytes per post/reply](#)

Nuworld - October 22, 2018, 7:04 pm

Did we miss something?

Just noticed we now get 3 Bytes per post/reply in threads.

If I'm not wrong it was 2 Bytes per post/reply.

Edit: also 5 Bytes per thread creation.

SuperiorUser - October 22, 2018, 7:06 pm

yesterday it was 10 for post and 12 for thread :P

yeah he increased it after he reverted it back from bonus bytes day. he also plans on increasing it more, scaled depending on your upgrade status

Yes I did read that from Omni.

Something new every day. ?

I thought it's the weekly deal that we get. Let's hope it returns again on 29th October 2018.

Every week you can earn bonus bytes by making 100 posts and not getting any warnings during the week.

I forgot about this- only requirement is that it's outside of lounge if i'm not mistaken.

Yeah but the one which gave instant 10 bytes is more interesting :)

Yeah that's correct.

VIXV - October 23, 2018, 1:32 pm

Oh wow, nice. Yeah bytes went up form 2.5 odd to 10-12 then down to 3. So still an increase!

Oh nice so 100 posts, any idea of what the total of the bonus is?

100 bytes is the bonus that you get if you post 100 posts within a week.

Condoms - October 23, 2018, 4:55 pm

Omni hinted on one of my threads for upgraded users that it would be going up..

Yes I read that post from Omni.

Should be any day now we get an increase.

Edge of Nowhere - October 23, 2018, 5:14 pm

It was nice while it lasted.

Crypt - October 23, 2018, 5:14 pm

So now I just need to make 33,334 posts to get my own crew.

This is gonna take a while.....

Haha damn, that's a lot.

Good luck on that.

I obviously won't be making that many posts haha.

Either they'll have to come up with another way to earn bytes or the only way will be to buy them to get enough. No one is winning big off blackjack or slots either (to my knowledge), everyone's losing all their bytes.

The way I see it IMO, just pay attention to Omni's posts/threads.

Things are changing so fast here on Hack Forums.

Ya never know what's coming next.
