Snowwy - October 23, 2018, 8:10 pm

Only problem is sleeping at night- knowing it's blackhat
If you can get past that then you're all good. ?

Kudos OP, no shame to your game. ?

soar-x - October 23, 2018, 8:37 pm

if it's truly blackhat then you're a dumbass for bragging about it online.

Crypt - October 23, 2018, 8:43 pm

I can see you getting caught in the near future.

All these people that fuck around with botnets usually do and you're bragging about it on a public forum haha. If I were you I would never speak a word of it and have a plan B for if you get your door kicked in.

not the sleeping at night part, the paranoia of losing it all and getting arrested is what keeps most people up at night

of losing it all and getting arrested is what keeps most people up at night when the money calling, yeah.. don't be surprised, especially bragging on here. Risk > Reward will do it to you.

I realized nothing is worth jail time honestly, I'd rather be legit making a killing off of my other abilities

Op: honestly take this shit down, quit doing what you're doing while you can. you have enough money to start a successful legit business.

9n8d - October 24, 2018, 6:29 pm

To be honest, I would suggest just going back to your whitehad method. \$60k in a month and a half is still insane. Like others have mentioned, it's really goofy to post on a public forum about blackhat methods and bragging about your income. Best of luck either way.

Capital Bra - October 25, 2018, 1:25 pm

Did you botnet mining? Or smth diffrent?

FortniteGOD - October 25, 2018, 5:12 pm

Mate going in jail is not worth for that amount of money

Fortune - October 27, 2018, 11:20 am

Holy shit, blackhat methods are profitable.

YuDoDisToMe - October 28, 2018, 10:52 am

If only i knew how to make this, one payment of 15K would be enough for me to start exactly what i want..fuck

Very nice earnings, dgaf about if its BH or WH, money is money and if you do it properly, dont worry

urk - October 29, 2018, 2:05 pm

Probably blackmail/ransom

Junx - November 6, 2018, 12:18 am

No blackmail or ransom.

Also personally I know people making 200,000-400,000+ in 2 months doing similar things. So I don't feel a big fish for this.

~Kryptonite - November 6, 2018, 12:19 am

I have no problems with blackhat, just share me the method ! haha

Skull-13 - November 6, 2018, 6:06 am

I have no words, this is awesome. Keep it going.

I wish you all the best!!!

?roye - November 6, 2018, 3:48 pm

I hope BTC hits 20k so I can look at that method, haha. Nice earnings OP!

Extremely Blackhat I wouldn't be surprised if you don't see me again someday ?

If BTC goes to \$20,000 I'll give out the method free. We can all go down together

Old whitehat bragging thread \$60,000+ in 1.5 months - Spoiler ([Click to View](#))

Damn, would you know any tutorials for setting up a decent botnet to rake in even like \$100 a day?
:P I don't mind if it's blackhat or not, I sleep like a baby with no conscious haha

urk - November 20, 2018, 10:18 pm

why would he share a method that makes him that much money? lol

Psychedelic. - November 22, 2018, 11:17 am

Dang nice earnings. Be safe and OPSEC max.

GainsForDays - November 22, 2018, 12:15 pm

Paypal fraud is quite profitable, I must agree.

Jombah - November 23, 2018, 2:08 pm

Sketchy, but high risk high reward I guess

hassano100 - December 1, 2018, 7:05 am
