Thread: [Do you wipe your ass backwards or forwards?](#)

Gay - October 23, 2018, 9:30 am

My friend brought this up. When I told him I wipe from back to front, he thought I was fucking weird, then I found out I am the only one who wipes back to front.

Backwards: Start from ballsack, wipe towards buttcrack

Forwards: Start from the back (buttcrack) and wipe towards your ballsack

I personally wipe forwards, I tried to wipe backwards today and it felt so weird and wrong

I'm pretty sure you're supposed to wipe backward to avoid getting unwanted stuff in unwanted areas.

Not like I get shit all over my scrotum when I wipe. I know when to stop, I am an adult now

It's been longer than that since I last seen threads like this. (I don't come around too much..)
But I know when I do see them, they are always that goldmine of sheer weirdness.

If you wipe side-to-side, it doesn't matter which way. You are retarded.
