Thread: [Services Programming, Haking,Installation Private tools Malware, etc ...](#)

**initvar** - October 23, 2018, 4:35 pm

Hello friends:

The first thing I present in the sector to give services to people who need help.

My skill is the following in several branches:

Programming -> PHP, SQL, C #, C ++, NET

SysAdmin -> Expert in Windows systems, Linux & Unix.

Hobbies: Coding and Analysis Malware.

The services that I have come to offer are the following:

- Custom Programming Services
- Services of compilation, explanation, installation of botnet, scripting, etc ...
- Security Services in Operating Systems, Servers, Networks, etc ...
- Hacking services
- Service installation of own private tools Malware.

All these services are available and here I am to answer any question or request for work.

To contact me you can do it through PM or through JID that you can find in my signature.

Have a good day everyone.

Well, you only have to ask for a job, I come to offer services, this is not spam, I take my job seriously.

If you need any service I will gladly assist you in my JID. ? ?
