Thread: [Bytes Earning Bonus by Group](#)

Omniscient - October 24, 2018, 2:56 pm

We now offer a bonus earning on Bytes based on your usergroup.

Regular members earn 100% of the setting. Example as of this post is New Thread post is 5 Bytes and post replies are 3 Bytes. L33t now have a 150% bonus so they will earn 7.5 Bytes for a New Thread and 4.5 Bytes for a post reply.

The current bonus percentages are:

L33t = 150%

r00t, Ub3r, v3ndors, and mentors = 200%

This is part of the features list on the upgrade page too.

Thank you.

Prodigic Son - October 24, 2018, 2:56 pm

Thanks for the Byte bonuses, it's great to see another new feature added to the board.

SIM-2875347 - October 24, 2018, 2:57 pm

Nice! Love me some free bytes.

Yet another reason to upgrade too

Cameron - October 24, 2018, 2:58 pm

Good incentive for regular/l33t members to upgrade given the recent hype about bytes. Thanks for the update.

iNuke - October 24, 2018, 3:27 pm

Awesome, one more reason to upgrade for anyone!

Thanks Omni ?

lcYSeptember - October 24, 2018, 3:33 pm

That's a pretty nice new feature.

gstar - October 24, 2018, 3:35 pm

Pretty cool, thanks Omni! :)

Omniscient - October 24, 2018, 3:39 pm

I have another incentive to release this weekend too. :)

SIM-3257834 - October 24, 2018, 3:42 pm

Well that explains how I was able to rack up on bytes.

DOG - October 24, 2018, 3:45 pm

Amazing! More bytes for everyone(little more for upgraded members hehe) :)

Vince - October 24, 2018, 3:54 pm

At least the incentives are making me want to post now. This should make everyone race to save up for Crews.

FiftyTwo - October 24, 2018, 4:00 pm

Thanks for the additional bonus Omni!

Awesome little incentive for upgraded. Thanks omni :D

webdev77 - October 24, 2018, 4:53 pm

I might as well clear my schedule for the weekend now.

b?xxy - October 24, 2018, 4:53 pm

So I'm guessing these don't stack, do they?

The do not. However they will take the highest possible multiplier.

That's good.

This isn't just part of an event, this is going to be a permanent feature?

Banter. - October 24, 2018, 5:07 pm

amazing work as always! love the changes

lol - October 24, 2018, 5:46 pm

permanent feature, as it's been added onto the upgrade features lists

Nas - October 24, 2018, 5:54 pm

This is a really good incentive especially since there's starting to be a lot more things you can do with bytes.

tiagoBower - October 24, 2018, 5:57 pm

seems pretty stupid as you want activity from newbies but yet they get rewarded the least for posting

should be newbies get most bytes but cannot spend them unless upgraded to l33t

Java - October 24, 2018, 6:04 pm

Hey,

Nice upgrade. I like the added bonuses, now I just have to wait a while before I can get r00t. ?

Snowwy - October 24, 2018, 6:14 pm

Awesome mate. Hopefully this encourages more people to donate to the site and post a lot more.

Nuworld - October 24, 2018, 6:22 pm

Something new everyday added to Hack Forums.
Great incentive and looking forward to this weekends incentive.

Keep up the great work guys. ?

Not really.

I would say it will encourage new members to post more to get their requirements to be able to upgrade.

Evanescent - October 24, 2018, 10:02 pm

Thanks for adding the bonus bytes. Can accumulate more now.

Happeh - October 24, 2018, 10:31 pm

Alright, who's looking to buy the first every bytes group.

Yin Yang - October 24, 2018, 10:34 pm

I'm assuming on bonus days it'll adjust correctly? Whether it's 2x or whatever it may be

muzzy. - October 24, 2018, 10:45 pm

Only fourteen thousand posts left and I'll have my own crew!

Nate - October 25, 2018, 12:09 am

Really enjoy this feature, makes me earn back bytes while I waste them all in the Blackjack

Noisy - October 25, 2018, 12:14 am

A really good idea & a great addition, thanks!

muzzy. - October 25, 2018, 12:24 am

Members with higher warning levels should earn bytes at decreased % (maybe 75) to encourage people to behave a little more. In it's current form the warning system doesn't really do too much and it might be worth hitting people in the balance.

Eagle 95 - October 25, 2018, 12:32 am

Even more reason for members to upgrade to r00t. Awesome.

SIM-403479 - October 25, 2018, 12:36 am

Oh good. I can now recoup my losses.

NoSuchAgency - October 25, 2018, 12:41 am

Sounds great love the bytes updates!

SIM-1349466 - October 25, 2018, 1:19 am

Anyway, another nice addition to HF. I'll definitely take advantage of it.

Ziamerkov - October 25, 2018, 1:40 am

Great feature. Now everyone can earn, lol. Appreciate it.

Omniscient - October 25, 2018, 10:10 am

Quote:Members with higher warning levels should earn bytes at decreased % (maybe 75)

50% warning level and you can't post.

System[X] - October 25, 2018, 11:31 am

Now maybe I can get more bytes to lose in blackjack :)

Thanks for another great addition.

seadoba - October 25, 2018, 11:48 am

What can I dot with bytes

Michael - October 25, 2018, 12:19 pm

Several things to do with bytes, search around and you'll find some things.

The only sensible thing to do with bytes is a bit of gambling followed by some lovely regret :)

Traum - October 26, 2018, 3:03 am

This will make it easier to make my way up to enough Bytes to buy a crew.

Originalkillit - October 26, 2018, 3:27 am

So according to my calculation

per post I am getting approx. 6 bytes

So max I can make 100 or less post a day so earning per day basis =max 600 bytes

So i should do this continuously for 20 days to at least get a Street Tier and deposit extra 2k in vault

It looks some what difficult(exception shit posting for 20 days ?) to buy a crew

Any helping hand ? that I can get to accomplish this mission so that we can easily do this in a group ???

That's the point of Crews... you don't have to do it alone. All members working together you should be able to crew up just fine.

Unkn0wnUs3r - October 28, 2018, 12:10 pm

This is good. A very valuable reason for upgrading. If I wasn't upgraded already, this would support my decision if I was as addicted to bytes as I am ;)

Kappa - October 28, 2018, 12:11 pm

Thanks for this, was wondering why I was getting so many bytes just for posting haha.

32x0LF - October 29, 2018, 12:35 am

Hsde - October 29, 2018, 4:38 am

Lovebox - May 22, 2019, 10:46 pm

Maskin - May 23, 2019, 5:24 am
