Thread: [Diamond ADC Playing Draven only Smurfing from Iron to Diamond](#)

Come watch! feel free to ask any questions about climbing, ect. In my opinion the best way to learn how to climb is watching streams that are smurfing. Not just mine, but others as well. Watching big streamers like qtpie and tyler are fun, but they are playing against similar skilled players. Watching smurfs do what they do to climb is a great way to adjust your play style and take away what they do to climb.

Also if anyone can make me a good avitar/signature Draven I am willing to do a free boost on your account up to plat!
