MS-DOS's Coding Services

I'm coding custom checkers(crackers), bots(web), leechers, scrapers and similar.

Features:Coding in Node.js, the language of the web! ?

Proxy support

Capture

Built-in HQ proxy support (You don't need to provide any proxy at all ?)

Very fast in single thread ?

Custom sites (any)

Fast delivery

Affordable

You can get the source code as an additional service ?

PM me details for a quote

Feel free to ask your questions

EIP - November 12, 2018, 3:12 am

Do you code in c++ ? Need something to be done!

S2K - November 12, 2018, 6:08 am

I only code in Nodejs, sorry

S2K - November 17, 2018, 9:38 am

Just finished a private project(cracker for a specific website) and working on a new order.

Geek - November 19, 2018, 10:07 pm

Great code, and fast delivery! You honestly won't find any other coding service like this for a better price. ?

TOM - November 23, 2018, 4:26 am

Vouch for his service he is a good coder

GLWS88 - November 27, 2018, 12:15 pm

Check this out. OP IS THE TRUTH. he built me a semi complex program and helped me along the way. We even debugged everything. Don't even hesitate with OP. Major vouches\$

Hopsin - January 9, 2019, 5:23 am

Good luck with your sales mate.

Nope, I'm coding web-based bots mostly

Spaark - January 9, 2019, 9:12 pm

Can I get a quote on what ever proxy service you provide the other bots with? Looking for something that can keep me with fresh proxies that aren't dead.

Cheers mate!

rawog420 - January 11, 2019, 1:27 am

What are prices for this service?

S2K - January 11, 2019, 3:32 am

Cheers mate! Hey bro, I'm using a 3rd party provider. I can help you with that later in details, it's a bit complex to just tell. If I forgot pls remind me within a few days. Nowadays I'm busy with some things in real

(Jan 11, 2019 02:27 AM)rawog420 Wrote: [\[CITE\]](#) What are prices for this service?

It depends on requirements.

- website's security
- website itself
- type of the bot (for example crackers/checkers are way more expensive than leechers/scrapers)
- scrape support or not
- proxy usage
- single threaded/multi (I only code single threaded for now)
- Time needed to complete the project

etc etc.

S2K - February 18, 2019, 2:27 am

Now I'm available again after a long time and taking orders.

Ask me for a quote

swavy - February 18, 2019, 9:19 am

If you're capable of coding a mass messenger for telegram lmk.

It needs to either mass message from the group chat members list or be able to export every member in a group and mass message from that list. LMK
