Thread: [can someone explains what is dropshipping also how could i make 5 bitcoin in a day?](#)

sonny - October 25, 2018, 3:16 pm

so as far as i know and understand that dropshipping works like this

- 1- you create a website with shopify
- 2- you get something from ebay like a used cd game or anything etc
- 3- you advertise your site with FB ads
- 4- you get customers that will pay you more than the original item in ebay
- 5 - you contact a multi national shipping company to ship to that address
- 6- is that right ??

and btw anyone know how could i make 5 usd bitcoins doesn't matter in a day or 2 but something quick thanks

and what is this google adword thing ??
