SIM-1097664 - November 2, 2018, 10:55 am

Notes:

Times of screenshots may not be accurate to current time. This thread was created over multiple days this last week since I had to wait for buyer responses along with dealing with real life things like work (What people do for money besides scamming people on HF ?)

Also, screenshots might be fucked up. I discovered when I tried to post that there's a limit to embedded images which is 15, so I just had to link to a bunch of them. Sorry! If something is fucked up, let me know.

Also also, this community alert originally started as an alert on SH?Đ?, then discovered ????? was in on it as well, so some wording might be a little weird in some places since I didn't feel like editing some things.

EDIT #1 11/2/18 2148:

Looks like SH?Đ? is trying to exit scam. A couple hours after this thread is posted, this happens - <https://hackforums.net/showthread.php?tid=5902797>

After scamming for \$1k, he vac bans himself - <https://i.imgur.com/KNlba20.png>

EDIT #2 11/4/18 0551:

SH?Đ? has now been banned for the above CE scam. Get fucked, hope the other guy gets his money back.

EDIT #3 11/7/18 1738:

So I've been on Valar's ignore list for a day or two now - <https://i.imgur.com/96AMM18.png>

He's also read this thread multiple times without responding

After multiple people posting on his sales thread here -

<https://hackforums.net/showthread.php?tid=5902365> - about him and his trash methods, he finally closed it. Will wait for a new one to pop up ;)

EDIT #4 11/9/18 0113:

Looks like he opened another sales thread - <https://hackforums.net/showthread.php?tid=5905179> - for anyone who wants to take a peek :)

Supposedly a brand new method, which I'm assuming is equally as trash, but still has the exact same thread layout, wording, and "Earnings proof" as his previous ones that this thread is based off. Interesting ;)

EDIT #5 11/14/18 2304:

So today, another user posted this thread - <https://hackforums.net/showthread.php?tid=5907555> - stating Valar was trying to buy his account.

The picture Valar sent this user as "Proof of earnings" was the exact same one he sent to me 5 months ago (His message to me is posted below)

EDIT #6 12/11/18

Looks like Valar is spending less and less time on the forum. He now goes days without coming online

<https://i.imgur.com/VAmKJSX.png>

While this is good, it also means he's probably either bought or is working on buying another account and will continue to post his trash

EDIT #7 12/27/18

Looks like they might be back under the account Nike+ -

<https://hackforums.net/member.php?action=profile&uid=1611873>

MaxoKream's sales thread - <https://hackforums.net/showthread.php?tid=5843510>

We'll get to why they have made multiple sales threads later.

Accusations:

SH?Đ? / ????? M??GH?L??S™ is a multi of the 3 banned users above

SH?Đ? / ????? M??GH?L??S™ sell the same eBook

This eBook was previously sold by the banned member MaxoKream

They vouch for each others threads and make new threads once they get negative reviews

Quick backstory:

Bought an eBook (Same one ????? / SH?Đ? are currently selling) from MaxoKream back in June. Most of the methods were pure trash, the main one would have been decent except for the fact that I'm now getting sued by a large software company for doing it and am currently out about \$2k between lawyer and settlement fees.

MaxoKream had two other accounts at the time, plus offered to buy mine, so I knew he would eventually come back and I've tried to keep an eye out for him.

Enough bullshit, let's roll.

Same Discord is used by ????? and Maxo

Message when I was talking to Maxo that links to Maxo's sales thread (The thread at the top of this post):

Let's move on and check out SH?D?'s profile.

I believe this profile was either hacked or sold. MaxoKream offered to buy my account so I'm sure he asked others as well.

<https://i.imgur.com/O7mjZlb.png>

Since SH?D?'s account is now closed, there's really no point in talking about him, so I've put everything about his account in the spoiler below.

Spoiler ([Click to View](#))

SH?D?'s profile history

Created on: 12-31-2009

Never bought any awards or an upgrade

Current post history goes back to 2016, posting in various threads including Secondary Sellers, the Lounge, RATS, Buyers Bay, Referrals, Vices, Currency Exchange, Console Gaming, Ewhoring.

Now, all of the other multi accounts were banned June 16, 17, and 18 of 2018

Looking at the trust scan of SH?D?', the account had an email change 7/9/18

<https://i.imgur.com/lIpJtq8.png>

Now the account starts to change after that email change in July.

After being on the forum for almost 9 years, the account finally makes a donation to HF in the form of a r00t upgrade on 8/15/18

Before the email change, the user had around 2k posts in various places of the forum listed above.

What is the first post after the email change?

<https://i.imgur.com/a2yFm8k.png>

Dropping a vouch on a \$140.00 eBook thread by ????? M??GH?L??S™

Since that email change, almost all of SH?Đ?'s posts have been in the premium seller section, either on his own eBook threads or on other eBook threads. Rarely, if at all, has the account posted in the forums that it did before the email change. There's been a lot of PayPay/BTC/Canadian e-transfer exchanges posted (I'm assuming to cashout his eBook earnings).

As mentioned earlier, Maxo had a screenshot of a CAD bank in his thread, so it's safe to assume he's Canadian.

Here's SH?Đ? looking for a Canadian E-Transfer in the currency exchange section -

<https://hackforums.net/showthread.php?tid=5879414> - so safe to assume he's Canadian as well.

<https://i.imgur.com/v2uSUEE.png>

????? M??GH?L??S™ also has a "proof" picture on his sales thread (

<https://hackforums.net/showthread.php?tid=5857382>) of a PayPal in both USD and CAD

<https://i.imgur.com/99HD0ri.png>

His vouch on SH?Đ?'s sales thread shows a CAD bank account

<https://i.imgur.com/EzqsBvV.png>

Here is an old post in 2017 from SH?Đ?'s account in the referral section.

<https://hackforums.net/showthread.php?tid=5712304>

<https://i.imgur.com/ZTRpwEK.png>

The Goo.gl link - <https://goo.gl/ZZEotj> - Is a referral link that redirects to Chime Bank and gives you a bonus for signing up.

Chime is an online bank that only US residents can get an account. His post even says "totally forgot to mention for us"

So a year ago, the account is posting about promos going on that you need to be a USA resident for. Now, the account is posting proof from a Canadian checking account and PayPal cashing out in CAD. Country switch is very odd.

Let's take a look at ????? M??GH?L??S™'s profile.

I believe this account was also stolen or sold.

So looking at his trust scan we can see a couple of things

<https://i.imgur.com/ZH2alkq.png>

First off, account has IP's all over the damn place, so that's shady to begin with.

Secondly, we can see an email change and a password change on 9/13/17

Current post history goes back to 6/12/17, with a majority of posts being related to crypto currency, either speculation or exchanges, with some oddball posts here and there.

After the email and password change, just like SH?Đ?, the profile starts to change.

<https://i.imgur.com/OjJpu4W.png>

So the first two posts take place on the 14th, a day after. One is asking for a vouch of an eBook and

another is asking for an exchange, PP to BTC (This could have been an early attempt at a scam.

Now 8 months later posts start popping up again. The first on 5/5/18 is asking for some type of free eBook.

The second post is some random congratulations post on a guys thread.

Now on 6/4/18 he posts a sales thread here - <https://hackforums.net/showthread.php?tid=5844536> - which he closed after being called out for bullshit (We'll talk more on this later)

Since then, the posts have mainly been in premium sellers on his eBook and in CE, looking for PP to BTC (Assuming cashing out eBook earnings)

This deal dispute was posted back in 2013 - <https://hackforums.net/showthread.php?tid=3506440>

Then OVER 5 YEARS LATER, he posts his first response to it

<https://i.imgur.com/oYhE6kq.png>

Why go back to a five year old account and post on a DD asking to get it closed? "I don't really remember what happened back then" - Yea probably because it wasn't your account lmao.

Now on to proof that SH?Đ? and ????? are selling the same eBook Maxokream was selling before he was banned

I messaged a couple buyers on SH?Đ?'s various sales threads.

I messaged a couple buyers on ?????'s various sales threads.

I told them exactly what I was doing, trying to find out if he was a multi who scammed people in the past. I then listed every method that MaxoKream sold me months ago, asking them to confirm if it was the same info they had just purchased from SH?Đ? and ?????.

Blocked out the following:

My name (Obviously it's me, just didn't want it on Imgur)

The part where I explain what the eBook contains (Did this so I'm not a "leaker")

The URL of the screenshots of the eBook (Did this so I'm not a "leaker")

Names of some users I PM'd - I did this at their request

Let's move on to some sketchy shit that SH?Đ? and ????? do!

Starting out, of course we gotta have the friend vouch as soon as the thread is posted

<https://i.imgur.com/5CoKoRD.png>

Whatever, it's fairly common knowledge that the eBook community here is a big circle jerk of everyone vouching for each other.

When a negative review is posted, SH?D? closes the sales thread, changes the title, and makes a new one.

His original sales thread here - <https://hackforums.net/showthread.php?tid=5899446> - has been changed to "Selling Fortnite accounts" after a negative review in post 12. This edit was done two hours ago.

<https://i.imgur.com/vUPjZ41.png>

Also done two hours ago was the creation of a new sales thread here -

<https://hackforums.net/showthread.php?tid=5899719>

<https://i.imgur.com/24H0OCx.png>

It appears that at one point SH?D? was selling Adobe CC upgrades, thread here -

<https://hackforums.net/showthread.php?tid=5875342>

Same thing, on pages 3-4 people started posting negative reviews. The thread is no longer open, which I guess is good so people stop getting scammed.

This seems to be a common idea between him and ????? M??GH?L??S™ since he's done the same thing.

A sales thread by ????? M??GH?L??S™ here -

<https://hackforums.net/showthread.php?tid=5871304>

On the last page of the thread, two negative reviews were posted. A day later, the thread is changed to "Selling Fortnite accounts" and is "Under construction."

Another sales thread by ????? M??GH?L??S™ here -

<https://hackforums.net/showthread.php?tid=5871304>

After Riyu posted a vouch basically saying the method was shit, followed by others calling him out, he closed his thread.

Another sales thread by ????? M??GH?L??S™ -

<https://hackforums.net/showthread.php?tid=5857382> - is also closed now, I'm assuming from posts 567 and 572, which were both negative reviews.

The thread was closed at 1854

<https://i.imgur.com/jRei3F0.png>

Then a new thread was opened 12 minutes later at 1906 -

<https://hackforums.net/showthread.php?tid=5902365>

<https://i.imgur.com/tFf3fg4.png>

He has continued to close and open new threads after negative reviews were posted. These will be added to the top of this post under the "Edits" as they continue to happen.

Pretty much sums it up. If anybody wants to dig more, feel free to post anything and I might add it to the OP.

Thanks and stay safe everyone!

Mr. Robot - November 2, 2018, 11:07 am

OK then, I was bored and cbf looking into it but this is a bit more indepth. I don't know if they are multis of the users you posted as ebooks do float around but I have a long history of conversation with valor before his name change and he doesn't remember any of it. It was really personal for him

at the time and i'm sure he'd remember.

Also interesting that he opened his thread again, he closed it before.

"Bought an eBook (Same one ????? and SH?D? are currently selling) from MaxoKream back in June. Most of the methods were pure trash, the main one would have been decent except for the fact that I'm now getting sued by a large software company for doing it"

That is very serious. Sellers shouldn't label blackhat methods as whitehat and downplay the legal consequences of their guides.

GreyGorilla - November 2, 2018, 11:09 am

Good job OP for providing these proofs, i will also open dispute soon on Valar, i am buyer of both Valar and Shade methods which are the same.

Too many scammers lately, admins need to be more strict about this.

Mr. Robot - November 2, 2018, 11:14 am

One thing I think you missed is how Maxo uses ===== in his payment proof for his images. Not sure how many sellers use it.

The discord number thing being the same could be coincidence too but doubt it. Any mutual servers anyone with that user?

It's the same Discord between Valar and Maxo. The sales thread of Shade and Maxo are damn near identical, have a thing written on that which I'll probably post later tonight.

Yea was real nice to receive a lawsuit in the mail lmao. Still dealing with it today and it started like 3 months ago. Hopefully it doesn't cost more than the \$2k already into it.

SH?Đ?'s Thread Title

<https://i.imgur.com/TvBxCWP.png>

MaxoKream's Thread Title

Spoiler [\(Click to View\)](#)

As far as sales threads go, they're all pretty similar, but what caught my attention was almost the exact same phrasing of "THE #1 AUTO-PILOT (INCOME/PROFIT) SYSTEM"

They also both claim roughly the same amount per day.

Top Part Of SH?Đ?'s Thread

Spoiler [\(Click to View\)](#)

Top Part Of MaxoKream's Thread

Spoiler [\(Click to View\)](#)

So starting off, the thread design was made by the same person for both threads. Not a huge deal, I'm sure he does a lot of these and the graphics at the top like "Working of December 2023" are fairly common. I'm looking more at the text beneath them.

Happen to have any questions or concerns? Feel free to contact me via any of the lines below:
Happen to have any questions or inquires regarding our methods? Please don't hesitate to contact us via one of the following support lines below:

Very similar in how that's written. They both use the word "Lines" which I don't think is very common. The contact names are very similar, both are the username followed by ".hf" The contact methods are both listed in the same way, including the PM MyCode which I also think isn't very common.

SH?Đ?'s Earnings

Spoiler [\(Click to View\)](#)

MaxoKream's Earnings

Spoiler [\(Click to View\)](#)

The text at the top is very similar, both using blue and white font.

Both PayPal accounts display USD and CAD values. Both PayPal accounts cashout to bank in CAD, the bank listed on Maxo's thread is a Canadian bank, so I'll assume he's Canadian.

Both have a notepad formatted very similarly, with some text, =====, then more text

Both income amounts are very similar, from \$60-\$120

?????'s Earnings

Spoiler ([Click to View](#))

Again, a PayPal in both CAD and USD

SH?Đ?'s Prices/Format

Spoiler ([Click to View](#))

MaxoKream's Prices/Format

Spoiler ([Click to View](#))

Besides the prices, these are formatted the exact same way. Same color of font split in the same spots, same "Click here to download..."

SH?Đ?'s Package Details

Spoiler ([Click to View](#))

MaxoKream's Package Details

Spoiler ([Click to View](#))

The details of the packages they offer are very similar as well. Both "basic" packages offer the same eBook, update fee, smaller amount of bonus content, limited support, and no refund. Both "advanced" packages offer the same eBook, free updates, larger amount of bonus content, full support, and full refund. They both also take the exact same payment methods - PayPal, BTC, and ETH - but I consider that a tiny detail as PayPal is a huge platform and BTC/ETH are probably the most common payment crypto.

SH?Đ?'s Terms

Spoiler ([Click to View](#))

MaxoKream's Terms

Spoiler ([Click to View](#))

Again, very similar formatting. Both in the bottom right of the page, both in smaller font, both in a spoiler tag. Now while TOS are generally pretty standard across the board, there's a couple that are literally copy/paste, including "You must wait 30 days...", "Proof might be asked for..."

Side note unrelated to proof, I love how he added "If I think it's sales trashing then it's sales trashing", so that if anyone posted a negative review he could just say it was sales trashing and refuse their refund. Nice job asshole. Negative reviews aren't sales trashing - From the [Help Docs](#), "Discouraging a sale without proper reason" is a marketplace violation. If you had a bad experience with a product or it doesn't work, then posting a negative review is not "Discouraging a sale without proper reason". Your reason is the experience you had with it. It's very possible that he added this after I asked for my refund because we had the exact same discussion as I mentioned above.

Anyway, rant over.

SH?Đ?'s List Of Things The Method Isn't

MaxoKream's List Of Things The Method Isn't

?????'s List Of Things The Method Isn't

Spoiler ([Click to View](#))

Very similar list of things that the eBook doesn't include, along with calling them "Low quality methods." Looking at the entire Q&A section of SH?Đ? and ?????, they are almost identical as well. Fun fact, I think everything offered from the main eBook and the bonus content is included in that list of "Low quality methods" or involves it in some way ;)

Not gonna say if it was Autodesk or not, because you know, leaking and stuff, but I would for sure heavily advise never touching anything with their name on it ?

jamesmakenzy - November 3, 2018, 7:21 am

it's sad that he was able to scam two people out of 200\$+ in his last thread but at least by doing this you saved others. I'm glad I didn't fell for his BS, people need to speak up when a sellers is selling BS. it's strange to think because the price is low that you shouldn't say it's trash. If it's trash it's trash no matter the price.

Shame

He's just gonna keep selling until he gets perma-banned. I should just chargeback the idiot on venmo, since he isn't gonna stop.

"Yes and Valar is still selling even with the extensive proofs in the reports against him

yes, shame. and things are almost always going this way in this forum. one of my friend asked about these things from the staff (after he was scammed), and the answer: "So have you learned that there is no easy way to make money yet?", and then they banned him from here.

Well they probably banned him because they don't get involved in DD ever and they say that all the time so when people continually PM them about deal disputes then yea they get pissy and close accounts.

It's unfortunate that this guy hasn't been exiled yet. I posted in his thread asking if he has settled these unresolved accusations and he proceeded to give my sales thread a low star rating..

if it really works why is he selling it

people that fall for this type of bullshit are retarded and i don't feel sorry for them whatsoever

Yup. He's read this thread multiple times and hasn't even responded once, nor has he responded to anything posted on his latest sales thread, so I really don't think he cares.

I posted in his thread and now he has a vendetta against me. He has rated all of my sales threads 1-star and attempted to discredit me in my own threads. I have PM'd staff about him and they said they have reviewed this thread but haven't had enough substantiating evidence to act. Vitani said he will be looking further in to it tonight though.

This added evidence from SoftButFirm should deff get him closed now.

I noticed another user stated in valars salethread that valar offered to buy his account aswell, the user is now closed so im not sure how legit that is.

Giving this a bump because looks like he's got another multi

User: Nike+

UID: 1611873

Link: <https://hackforums.net/member.php?action=profile&uid=1611873>

Nike+ is selling the same exact eBook as Valar was before I opened this alert on him. Refer to the post below

<https://hackforums.net/showthread.php?tid=5923006&pid=58057888#pid58057888>

Now it could just be Nike+ is selling the eBook after he bought it or found it himself, but I think it's another multi.

Let's look at the trust scan of Nike+ - <http://prntscr.com/m02un6>

Nothing too crazy, the only things standing out are the login/ISP IP's and a new login IP on 12/07/18

Now comparing that new login IP with account activity looks odd.

IP login change 12/07/18

Valar goes offline 12/15/18 for 12 days and counting - <http://prntscr.com/m02xf4>

Nike comes back almost 4 months later on 12/18/18 - <http://prntscr.com/m02xwo>

Also created a giveaway and bytes for rep, trying to repboost to purchase r00t I assume. Speaking of which, this account is almost 6 years old and finally made a donation.

TL;DR

Account activity stops for 4 months

There's an IP login change

Rep farms to buy r00t (First and only donation in almost 6 years on the forum)

Starts selling eBooks and other products

Spoiler ([Click to View](#))

I have a reason to believe this member is multi-accounter, known as Valar, Nysta, MaxoKream, Danny Phantom, etc.

Profile:

<https://hackforums.net/member.php?action=profile&uid=1611873>

Thread:

<https://hackforums.net/showthread.php?tid=5921718>

First of all, his thread title is the same as his other "private method" ones:

<https://hackforums.net/showthread.php?tid=5905179>

<https://hackforums.net/showthread.php?tid=5905179>

(Bold text, thread format, etc).

I have a reason to believe this account has been sold to Valar/Nysta.

If we check Trust scan, you will see last IP login date was on 7th of Dec, 2018.

The account was last active on 29th of Aug, after that the IP changed, he made 0 posts and on 18th he posted a giveaway thread (probably to get some popularity)

<http://prntscr.com/lz50ma>

He was farming popularity until 22nd when he posted a premium method for sale in premium sellers section

<http://prntscr.com/lz515b>

Exact same posting format ("I've gone ahead..")

<http://prntscr.com/lz501y>

<http://prntscr.com/lz593r>

Valar's and Nike+'s thread have the same bitcoin wallet as payment proof (probably inspect element)

<http://prntscr.com/lz59h5>

<https://gyazo.com/377e71a0ba220e2587207b79ac951fd1>

Also, both threads have very similar PayPal transaction proof

<https://gyazo.com/930538c2d96968a43431c16288c25377>

Vouch on Nike+'s thread has the same writing format as Valar. - "Gone ahead" / "Went ahead"

<http://prntscr.com/lz5a4v>

That account was last active on 14th of Dec. On 21st of Dec it started posting on the thread. His only post in the marketplace in the last 2 weeks is vouch for Nike+'s method.

Both threads have a very similar layout (as mentioned before)

<http://prntscr.com/lz5cs7>

<http://prntscr.com/lz5cz8>

(Discounted copies, payment methods, etc).

Both threads (actually all of his previous multi accounts) have live: skype username, meaning the accounts were created recently.

Same posting style (again):

<http://prntscr.com/lz5dxd>
