Thread: [Want to spice this section up?](#)

I see you guys in this section talking about how dull it is sometimes. I know some people that like anime a lot. want me to see if they're interested?

Haha good one man, but you should have posted something relevant instead.

A couple of friends doesn't automatically spice the section up - constantly talking about spicing the section up doesn't change it either.

Also, you're asking permission to a grand total of 5 posters. Why not just do it and make an effort instead of making more threads at how dead the section is?

No let's not spice it up thanks

True dear , but you should have posted something relevant instead. It seems not clear..
