They do work in store.

For online use, pay at least \$5 + shipping after applying all the codes..

For in store use, generate barcode from this site : <https://barcode.tec-it.com/en/Code128>, or use any mobile app that can generate code128 type of linear codes

Please note that I am not giving warranty that they will ship(someone advised me to add this to the thread :)). But I didn't had any member complaining about cancellations.

I have more codes, will keep restocking.. When do I restock? I am not sure.. But keep checking..

let me know if anything.

Use them ASAP

Get the codes here:

OP, I think you should update the prices

\$10 off is \$2 which is 80% off while \$50 off is \$14.99 which is only 70% off

so buying 5x\$10 codes would be cheaper than buying a \$50 code, could you update it so the \$50 is
cheaper if possible please?

EDIT: same thing for the other codes because they seem to be rising in price as the values go up.

That is intentional for obvious reasons. There is a max number of coupons per order so if you want
to buy a higher value item it costs slightly more.
