Thread: [Offering Free Coding Service - Suggest me](#)

S2K - October 27, 2018, 1:09 am

You can check it my main thread here: <https://hackforums.net/showthread.php?tid=5899279>

I want to code something for the community for FREE.

It can be a cracker/checker, leecher etc. Just post below this thread what you want/need. I will choose one of them soon and will code it and release freely on forum.

Features will be:Single threaded

No captcha support

No proxy support (maybe I can change my idea, still not sure. Feel free to suggest sites with proxy)

Closed source

CLI app, no GUI

Pm'in you with more details.Thanks for your interest. However I reviewed your need but it is not a something which other members make use of it.

Please specify a more general interest (For example; cracker for a * website etc.). This shouldn't be a much complex progra since I'm doing it freely and my time is limited.

Are you able to port a C# source code into node.js, but having it as a cleaner code?
