Thread: [\[2/5\] Gentoo update for quagga](#)

Omniscient - May 2, 2007, 8:44 am

Gentoo has issued an update for quagga. This fixes a vulnerability, which can be exploited by malicious users to cause a DoS (Denial of Service).

Be sure to check if your system is missing security updates or have insecure applications installed:
http://secunia.com/software_inspector/

Feature Overview - The Secunia Software Inspector:

- Detects insecure versions of applications installed

- Verifies that all Microsoft patches are applied

- Assists you in updating your system and applications

- Runs through your browser. No installation or download is required.
