I don't. All of my cameras are digital these days. For reference, I'm in my twenties. Do you still have a camera that uses conventional film?

Almonds - October 27, 2018, 10:34 am

I don't have a camera that uses conventional film.

SIM-403479 - October 27, 2018, 10:34 am

I don't use them though.

SIM-3257834 - October 27, 2018, 10:36 am

I don't even use the camera on my phone, so no I don't use flim camera.

Lion - October 27, 2018, 10:36 am

I do. There's something euphoric about that snap sound.

b?xxy - October 27, 2018, 11:37 am

I think I have one somewhere, but honestly I'm not sure where it is.

thesuue - October 27, 2018, 11:38 am

Not really, I used to use those 1.5 decades ago but not anymore.

AreaOfNate - October 27, 2018, 12:31 pm

I don't personally have any, but I do know there's a few at my Mother's house somewhere. I caught the digital bug years ago.

GilbertHamlock - *October 27, 2018, 1:41 pm*

No but I would use a disposable camera. Digital cameras are on the rage! Totally rad.

Soaring66 - *October 27, 2018, 1:57 pm*

Everything is digitized now a days. Even photographers use em.

I have it somewhere, but I don't use it from like 10 years

voidshifter666 - *October 28, 2018, 4:54 am*

I don't, sadly. I remember my family had one, but after it broke, they didn't buy another one because of the digital era.
