Which is your favorite? High school, college, or graduate?

I liked high school it was fun. College is dope. When you graduate it's cool as well.

I love college..

But I had an insane time in high school. Me and my friends did some ridiculous shit. I'd say it's more dumb than fun though.

School is school. It is all about the level of education not the grade

I'd actually prefer college over high school because of the more freedom and responsibility I'm given. However, my 4 years in high school were the best. I performed in front of a lot of people and was just involved in so much lol.

College is a very good time for you to prepare for what you will face to face in life.
