I am looking for anyone with an ebay account , ive a grey hat method to make money from the same day. It doesnt violate any terms or would put the account to risk but must be an account from usa or canada. Not a new one. Depending on how aged it is you can make a 100-200 on the first day. Payable in bitcoin no problem. Hit me up if you are interested.

Do not work with this person, they make you advertise iPhones and then never ship them, once you start getting suspicious, they stop replying and disappear. This is 100% a scam.

this guy is a fool , he doesnt understand english properly .How is it a scam? if you sell on your ebay money goes in your account and you control all the money and ebay doesnt release until the item is delivered. Guy is an idiot.
