cremlio - October 28, 2018, 3:43 am

I almost always use headphones to listen to music, and for general audio when I surf the web. Do you use headphones to surf the web?

I always have my headphones on, because I am mostly gaming and surfing the web during downtime, often though I find that I move my right headphone behind my ear incase anyone is trying to get my attention or talking to me

voidshifter666 - October 28, 2018, 4:34 am

I usually put my headphones on from the moment I turn on my PC. I think it has become an habit.

And I somehow don't feel comfy when I don't wear them.

.irie - October 31, 2018, 8:57 am

When I'm on my laptop, I have to have some headphones on or have my speakers at least playing music or else I get bored out of my mind and lose focus.

Zexi - October 31, 2018, 9:02 am

Always got music in the background with my headphones on, always keeps my spirit up and makes me more motivated.
