Thread: [Chess / Checkers Bytes Betting Games](#)

Pikachu - October 28, 2018, 1:10 pm

So i thought of an idea to add to HF, since slots and blackjack are already a thing, i thought it would be nice to have a chess/checkers game where you can either play against other forum members and bet bytes to see who wins, and/or play against NPC's and for every win you get a certain amount of bytes against the NPC's (Depending on difficulty)

I just randomly thought of this as i came across a random board game thread.

I also want to see how many people i can beat at chess here on hf ;)

Pain - October 28, 2018, 1:12 pm

I am REALLY interested in like a rock paper Bytes game. I want a player vs player for bytes

Prawnster - October 28, 2018, 1:14 pm

Yeah, something with a player vs player element to it would be nice.

Or something like an arena to bet on bot vs bot in these situations and you can see what everyone else is betting on

Hey, that's also not a bad idea! We can only wait and see what the future of HF bytes will hold! :D

PVP Bytes games should be as thing!

SIM-403479 - October 28, 2018, 1:16 pm

What about crew vs crew?

We will see what happens.

WageWolf - October 28, 2018, 1:18 pm

I like the idea of something simple like Checkers! :D

Thinking about it, didn't Omni mention that there would be things like crew vs crew events where they can look to attack "byte banks" and things to that nature? Might be thinking of something else but I'm pretty sure there were ideas around this subject which hopefully we'll see in the future

Goku - October 28, 2018, 1:25 pm

This would be awesome and the pvp mode would be a cool activity on the forum :D

luke - October 28, 2018, 3:15 pm

Coin toss and RPS might work.

Specializer - October 28, 2018, 3:36 pm

PVP would be a great addition, would love to see that.

right? lets hope they consider it, it would be alot of fun.

Almonds - October 29, 2018, 6:44 am

Community Roulette would be something i'd personally enjoy.

Although- bytes aren't all about gambling.
