Thread: [Question about making your penis bigger](#)

MAST3RM1ND19 - October 29, 2018, 2:17 am

I actually have no idea if we can talk about this if not then delete this thread please

Ive always been abit self conscious with my penis because i had to have surgery on it due to it swelling up every-time i piss then once finished pissing it went back to normal yeah abit weird Ive lost alot of size and now i want to make mine at least 2 - 3 inches bigger and surely there must be a way to make it abit bigger. I heard jelqing works but has anyone ever used this technique or any other techniques?

spradebassen - October 29, 2018, 7:32 am

Only thing that I've heard works is the pump shit but honestly the rest doesn't work it's all just to get your money you either have a big one or you don't and its honestly that simple man when you get older you'll probably get less self conscious with it.

Yeah if there was something that worked 100% every guy would use it.

Just learn to accept your size. It's not the size, it's how you use it

Honestly don't worry about it. I've got a 7.5 inch dick which is fairly average and i still feel like its small. Theres nothing you can do about it.

Skepticism - November 13, 2018, 5:20 am

I've always been told it's not the size of the boat it's the motion of the ocean. I have lived by this ever since the first girl I was ever sexually attracted to told me the quote. And with that, a new-found confidence in myself, I have never once heard any complaints and I think of myself as a less-endowed male.

Whenever I watch porn, an add always pops up endorsing Titan Gel. Lol. Does that even work?

Dope - November 13, 2018, 9:46 am

I'm not sure if this is the right subforum to talk about this. I think Innuendo would be more appropriate.

Smexy - November 13, 2018, 11:09 am

You can try to get a girl to suck your weiner for a hour or 2, then it's way bigger.
