Thread: [Building Your Graphics Portfolio?](#)

**Born2Help** - October 29, 2018, 5:40 am

Hey,

I'm building a local eCommerce site, need a logo for it. I hope someone can help me to make one.

Logo Name: Iniik / iniik  
haven't decided the slogan yet. ?

Color any type / any design you want, I've just installed the theme (haven't customized yet). If you can give me the PSD file, so I can change the color by my own taste.

Planning to build a store with gifts related products (but in future, I may make it as a general store).

Thanks in Advance. ?

Same here. I just want to make an attempt. OP, send me the details.  
Thought I'd give it a shot.
