i would take caution on buying bits as you dont know where this is coming from also bits is more bannable by twitch than any other twitch services just take a look on this

https://www.reddit.com/r/HoldTwitchAccountable/comments/7yl62q/streamers_getting_banned_for_receiving_bits_from/

if you care about your twitch channel i will take caution on this

also he just recently joined and his reputation is -12. his vouches is from newly joined account with 2 mins activity and first post is vouching for him. fishy

If you google search Twitch bits fraud you'll see a whole section of it saying anyone using bits in a fraudulent manner will be banned. You even admitted to using a bot to get these bits lol. Dwc
