Dra2020 - October 31, 2018, 12:08 pm

Not too much to say just want to put out there the user "PAIN" is a scammer, lost \$50 after he reached out to me claiming he was apart of a team creating fortnite hacks,I have all the evidence but loads of my bad on believing him, too quick to trust but once again I take responsibility for that part but not cool if he reaches out to any of you guys please avoid and don't help this bum use your money. Thanks to those who make this forum a community and learning experience, no thanks for the users like PAIN.

His UID = 2126129

Happy Halloween, good luck out there guys!

I'm unable to post pictures or proof until I have 50 post or else I would have but if you'd like to see proof a simple pm would do and I'd be glad to show you.
