Thread: [Grow Your Instagram Organically With REAL Engagement For FREE](#)

funnelmentals - November 1, 2018, 11:35 am

I'm sharing a free software I use to help my Instagram get REAL engagement organically. This is a FREE service, but if you want power likes and views it does cost.

Everything you need to help your account health without getting shadow banned!

How does it work?

When you create an account you add you Instagram account, once you add your account you go to the pods section and add your Instagram

Then choose a pod with your niche, the size of your account and if you want likes and comments(I chose likes only but it's up to you).

You get 4 post per day that will be engaged by everyone who has the service automatically. You will also like others post automatically.

There are a lot of cool features, but I just want to share what you can get for free...

To sign up copy&paste this link [bit.ly \[WARNING: potentially infected\]/organicinsta](#)

Leave a comment if you have any questions

Definitely seems like an interesting idea. Wonder if it's safe and effective.

I tried it out on a brand new account less than 500 followers and got 200+ followers in 3 days, manually posting

Registered. Looks legit. Trying it now, will post something on my IG soon so will see how it goes :)

Edit: Works pretty amazing. Got likes and some comments (waiting for more, if i set everything right) from different accounts and they don't look fake. It's like a big engagement group that is really active.

Couldn't sign up. I used my actual first name, no other characters, and it told me I couldn't use the characters.

Ok not sure why that would even be an issue if you have facebook, join the group and ask the admins why can't you sign up.
