For my example i will use the landingpage from the Pro Package:

1. User gets to the landingpage
2. Enter their informations (so it looks real)
3. After that a iframe with the script will get opened (whatsapp script for example)
4. To continue they need to share a message you want with 10 friends via whatsapp
5. After they sent it to 10 friends they click on continue and will get redirected to the Cpa offer or the link locker

Update #1:

Capital Bra has definitely helped me a lot so far

So what happened? Did you ever make any money with the script? Did you even make your money back? You seem to be the only one that's bought it.. There are no vouches from anyone saying they bought it and it was worth their money.

And then you have the OP claiming he made \$2k in 2 days, with the script.. and posted a screenshot that looks extremely fake, and seems to not want to show any proof of that he's ever made any money with it. I'm willing to buy the script right now, as I have been doing CPA for years.. but when you have possible fake screenshots, and the seller unwilling to show definitive proof... it makes me skeptical of even wanting to buy it.

If you're making roughly \$1k a day... even lets say \$500 a day, why would you be trying to sell your meal ticket to people for \$70.. and if you really were trying to sell it, wouldn't you want to and be ready to show people, listen my stats are REAL and not FAKE?

Alot of RED flags. Hoping OP can prove me wrong.
