Thread: [Any namecheap or Godaddy coupons?](#)

A + - November 2, 2018, 11:14 am

Trying to snag a .com domain, preferably from namecheap, but I'll settle for Godaddy. I remember seeing one for .99 per year but it expired. If somebody knows of one hit a brother up. Ty :)

10% ON ANYTHING I GUESS - "SUPERFALL"

25% OFF Hosting - "HAPPYNOV"

And all .com domains were 0.99 I don't know if that's till active.

Edit: There is also Domain Names \$0.88/Year + WHOIS Guard. I think domains with "special" tag are those on sale.

I think with GoDaddy you are only allowed one \$.99 domain per account. and its only .99 cents for the first year.

I'd suggest waiting till black Friday. Namecheap does some insane deals (GoDaddy probably do too)

About a 1-2 months ago there was a deal on .com domains on Namecheap + free whois privacy. But I belive there are good deals on the way for black friday. I already received an email regarding that and I will transfer my all domains from godaddy to namecheap
