Thread: [Argon Miner V3 | GPU + CPU | IDLE | NO DROPS | SILENT XMR MINER | AUTOBUY \\$\\$\\$\\$](#)

Qcode - November 2, 2018, 2:47 pm

---- New Features ----

1. Even STRONGER persistence with ring 3 rootkit and multiple startup methods depending on permissions
 2. UAC Bypass
 3. Updates to the auto-spreader now use their steam, discord, skype to spread!
- Feature 1 and 2 kinda go together for a combo of amazing persistence

Completely Native, made in Delphi and ASM.
100% Scantime/Runtime FUD updated weekly with private stubs.
No drops
Hides from task manager etc and has anti-debugging
Most profitable silent miner on the market

My results as of now: <http://prntscr.com/l7s11y>

Comes with python auto-spreader automatically start making monero once you buy!

Buy the Builder; <https://digitox.net/p/xj968>
Updated the auto-spreader, now uses their gmail, yahoo, protonmail, outlook to spread!

Bought, received my miner. Looks GREAT! going to start it up on my machines and I'll report back with the results :)
The auto-spreader looks great too.

EDIT: Heres my results after 1 hour of spreading with the auto-spreader: <http://prntscr.com/ldre1b>
very impressive thanks so much @qcode

What is the average hasrate per worker with your 23,4 Kh/s?

What is the size of the EXE?

Zan0n - November 3, 2018, 3:51 am

is this for real??

Do not fall for it, seems like a pure scam.

Too good to be true.
