Thread: [2.200\\$ in two days \[CPA EARNINGS\]](#)

Capital Bra - November 4, 2018, 4:52 am

Yesterday in the morning i setup everything (landingpage, domain, host).

And in the evening i already made more than 800\$, now i checked my balance today and ive made 1.3k today.

2.200\$ in two fucking days.

I tried the same landingpage a few months ago but i only made 700\$ and then my domain got suspended.

I will keep you updated guys. ?

Im pretty new to CPA and this my third try.

My first was youtube methos i only made 10 bucks.

Then i fall myself into a very good marketed cpa landingpage.

I just edited their concept and created my own niche :)

And thats how i earned 2200\$ in two days

I think OP is using a mix of YouTube and Facebook, since this is all (or almost all) mobile traffic (as you can see its OgAds).

It's pretty obvious this is fake and just a way to try and have people buy your viral script. If you can't show any actual proof of traffic, or your earnings in a gif or video.. then I'm sorry, I'm calling bs. You conveniently ignore the posts when people point this out, but are quick to reply with anything not related to proving that your stats are real. What's your username in the OGads chat, shouldn't be too hard to find out if you're bluffing or not. If you ignore this post, then you've pretty much shown your hand. You can fool the new and gullible people that have no experience in IM.. everyone else isn't that dumb. But by all means, prove me wrong.. I really would like to know that you're telling the truth, but for some reason I doubt it.
