Thread: [Dumb Question | Add PM Button To A Post](#)

SIM-1097664 - November 4, 2018, 3:48 pm

Got the Skype one figured out, but for the life of me I can't figure out how to add this damn button to a post ???

Looks like this

But for sending a PM. tried a bunch of variations already.

Edit: Picture for what I'm trying to do - <http://prntscr.com/lef2pv>

Yes I'm an idiot. If I missed it in the [Help Docs](#) I'm sorry.

Thanks.

You want the pmme mycode.

Code [pmme=Subject&message=Message]Click me![/pmme]
