Thread: [Trading my bytes for a L33T upgrade.](#)

???????????Michael Kors - November 4, 2018, 4:04 pm

I'm looking to get a L33T upgrade for all my bytes plus the other 500 that come with the upgrade. The current bytes rate is at \$0.02 per each, so 1200 bytes equal \$24. For that reason I'm willing to send you an extra \$3 extra in BTC apart from the bytes. Summed up you'd be getting a nice amount of bytes and \$2 in BTC.

PM me.

INCREDIBLE - November 5, 2018, 12:32 pm

from a recent post of Omniscient, we get the idea of bytes price being \$0.015 approx. but well, good luck with your deduction. and I guess this should be in currency exchange section?

?roye - November 5, 2018, 12:34 pm

I guess you could trade your bytes to btc or some currency and then buy l33t with that in an easy way?

People are paying \$20 for 1000 bytes. And I can't post in the currency exchange section as I'm not upgraded.

Actually I can't, because I only have 700 at the moment and people tend to buy 1k+ bytes per transaction, so I'll hardly sell anything.

That's why I'm offering to send 700 bytes and \$3 BTC at first, and the other 500 bytes when I get upgraded.

???????????Michael Kors - November 6, 2018, 5:13 pm

Still trying to trade these. PM me.

Pyro - November 7, 2018, 8:17 am

pm me, we can work something out

Entim Inc - November 7, 2018, 11:28 am

I'm sure we can arrange something, how much is l33t?

its a deal

I'm not looking to spend anything above \$4. 1200 bytes plus \$3 for a L33T upgrade is already a great deal.

I will message you if I don't get a better offer.

Thank you for your post.

It's currently going for \$25. That's why I'm giving an extra \$3 to whoever does this for me.

PM me.

I have a few people offering to do this for me but if I don't get a better deal we can work this out.
