Thread: [php?action=subscriptions Not Working](#)

Raymond "Red" Reddington - November 5, 2018, 12:33 pm

<https://hackforums.net/usercp.php?action=subscriptions>

Select all doesn't do anything, and when I click delete, it doesn't do anything either.

MadG00fy - November 5, 2018, 12:53 pm

Ye, select all doesn't work for me either

Mr. Robot - November 5, 2018, 12:55 pm

Deleting does work for me at the bottom if you click "with selected" but selecting all at the same time doesn't work.

(just for anyone wondering if it's a browser issue, it isn't however you can get plugins to select all radio boxes on a page - confirmed by testing the select all in PMs and it works fine)

Omniscient - November 5, 2018, 1:05 pm

Probably a JS problem. We had issues on other pages. I'll have Xerotic take a peek.

Thanks a lot, Omni.

Appreciate your effort.

Xerotic - November 5, 2018, 2:17 pm

This is now fixed. No action required on your end. ?
