Thread: [Google/ Facebook/ Instagram Ads method | \\$1500 balance | Private method](#)

Andrew2k18 - November 5, 2018, 3:10 pm

Hello members of Hackforums, I have been working on a method for this for a super long time. It's something I have spent many tedious hours on, and I have finally created my own method. It is legal, but greyhat, and you need to use a VPN. The method works with all three of these mentioned companies. No one else currently has this method, and I will provide you with everything you need. After purchasing, there is no more investment needed. I am selling this for such a low price because it is not saturated, and in my opinion it can not be. If it is ever patched (highly unlikely) I will refund 80% of your money.

Here is my price:

\$75 in any crypto. I guarantee that you have never seen this method before, and if you can prove to me that you have, I will refund 100% of your money.

I will give out one vouch copy, please post below if you are interested. All deals will be done onsite using the contract system.

Weird how you have all these new threads about Fud Explouts, Facebook methods with \$1500 balance out of thin air when you just signed up 3 2 days ago but in reality you won't get sales without proof? Any explanation? Are you a multi? Or are you just selling public methods for a quick buck

Please stop sales trashing. This member wanted me to send \$130 upfront for a currency exchange deal, even though he has had multiple scam reports in the past.

Please don't be jealous of my talent, just because you don't have these abilities yourself. Try to scam someone else, not me.

The method is useless as there can be many flaws. Provide us with a working account, this way it'll prove that the method is actually working. Otherwise, unlike another member here who has an open scam report related to the same thing you are selling, this can end up like a scam also.

Ordered 2 days ago and still waiting for the seller to send the method.

EDIT: Seller ignores all PMs, a dispute has been opened.

You dont deserve to uber Imfao. Why would anyone go first with a scammer like this?

Because the method would have been worth it. I normally pay 90\$ for such accounts and they sometimes get banned immediately, this was worth the gamble.

Bruh, I am sorry for the loss. This OP seems like a scumbag.

imadothis99 - November 9, 2018, 6:12 pm

spuyguyz accounts often get banned after they spend 30-40% of their balance if not immediately.. he is selling on other forums too and people say the same things about him. its hit or miss and he responds pretty slow. I make my own accounts these days.
