You will never get 0.04 budd. You should rethink pricing.

And you are charging double rates for buyers yet when you sell you expect half that? pfft.

You should take a look at my thread: <https://hackforums.net/showthread.php?tid=5903604>

I'm basically trading 1200 bytes + \$3 in BTC for a L33T upgrade.

Let me know.

Let me know.

$0.02 \text{ times } 1200 = 24$

$24 \text{ plus } 3 = 27.$

So thats pretty close to fair. GL.

Vampiire - November 6, 2018, 5:15 pm

So basically your putting capital to your HF bytes to raise money for the l33t upgrade?

I wanted to give out an extra to whoever gets this done for me.

And thanks. ?
