Thread: [MyAwards Updated to Sprite](#)

Xerotic - November 6, 2018, 6:06 pm

For the past 20-30 minutes Omniscient and I had HF closed so that we could update the MyAwards plugin. Traditionally each award was its own image file. Now all the awards are grouped into one file (sprite) and displayed using CSS. You shouldn't really notice any difference as this is focused on improving general site responsiveness and SEO.

Some pages are still bugged (buyawards.php) and we are working on correcting those. If you notice any other pages working incorrectly then please post below.

However... before you report any bugs please make sure you have these files cleared from your cache and freshly loaded:

<https://hackforums.net/cache/themes/theme12/award.css>

https://hackforums.net/uploads/awards/award_sprite.png

/ Notice for direct links to old award images /

Right now the old award images were deleted while being converted into a sprite sheet in preparation for this switch. This will be changed tomorrow so that the old award image names/files are preserved for legacy purposes (anywhere those award images might be linked).

That's cool. I hovered over yours, they still have descriptions. That's interesting, nice job

Nas - November 6, 2018, 6:07 pm

Sounds like a good + clean update. Glad to see updates like these.

B?ker - November 6, 2018, 6:07 pm

This is awesome, and smart move!

Yup, made sure to keep all the good functionality that was there already.

Nas - November 6, 2018, 6:11 pm

So I noticed that you can see people who donated for awards in /myawards.php.

I remember Omni made it private for numerous reasons so don't know if that's intentional.

Almonds - November 6, 2018, 6:13 pm

Great job, you guys!

Keep the updates coming.

It's ok I opened one of every tab already

Banter. - November 6, 2018, 6:21 pm

Great job guys!
good work as always ?

Snowwy - November 6, 2018, 6:29 pm

Thanks for the update.

Appreciate how you guys always let us know.

Cryptic™ - November 6, 2018, 6:31 pm

This is dope. Xerotic being hired as a developer for HF is one of the best things that have happened to this site. So many frequent updates now.

Xerotic - November 6, 2018, 6:35 pm

Update: buyawards.php page should be completed normal now.

SIM-82498 - November 6, 2018, 6:36 pm

That is actually such a smart and efficient way to display awards. Thanks for the update.

Kill Joy - November 6, 2018, 6:48 pm

Finally. My awards page took FOREVER to load... /s

Good work as per usual. :)

Makaveli The Don - November 6, 2018, 7:15 pm

Xerotic always on the grind. Good job big homie. :)

iNviZ - November 6, 2018, 7:25 pm

Awesome, great little update.

R?R - November 6, 2018, 7:28 pm

Cool, now to hopefully start collecting some awards! :)

is it maybe a glitch but your usertitle is hf bots

Business - November 6, 2018, 7:42 pm

Good work! It's nice to see you guys working on all site features, big or small.

Nah, it's just a crew called HF Bots where all the HF bots gather. :x

Rayner - November 6, 2018, 7:48 pm

Really good change! I feel as though the awards load quicker now.

Piplup - November 6, 2018, 7:49 pm

Man, rendering a spritesheet using CSS can be a real pain. Looks like things are all well-aligned though, so well done!

Athr - November 6, 2018, 7:55 pm

<https://hackforums.net/myawards.php>

"Legalize it" has a broken anchor tag.

EDIT: All anchor tags are broken on myawards.php

Ah shit, nvm. Im just autistic. I put 2 and 2 together and thought bots were like testers

Fortunate - November 6, 2018, 11:20 pm

Clean update. Earlier you could just click on an award and save it, now it just give you the option to "Show background" and shows you a line of all the awards. Can you save award images anymore?

Good job.

Nate - November 7, 2018, 12:57 am

on the buy awards page It shows the lounge head award for the BTCash one

Not sure if thats only for me though, but anyways just a simple fix I suppose

Agreed. Thanks for the continued work Xero.

Vitani - November 7, 2018, 7:41 am

Great change that will definitely benefit the forum. Keep up the good work!

Hydra - November 7, 2018, 11:40 am

One day... one day Hack Forums will move from raster to vector SVG sprites and those with 2K/4K displays will have an improved browsing experience. But not today so I shall go back to bed and continue dreaming.

WageWolf - November 7, 2018, 11:56 am

Nice little update, does not change much, but makes things much better on your side of things! :)

Lukas - November 10, 2018, 2:37 pm

Can you revert this so I can still display award images in the News??

Use the new MyCode:

Code [award=55]

I approve. Will make the code a lot more manageable as well.

Thanks!

Thanks!

Plus it wont waste your IMG tag count when making threads.
