Thread: [Cant reply on thread](#)

TwitchIncomes - November 6, 2018, 6:56 pm

When I try to reply to a thread I get this message "There has been an error due to your post data being empty. Possible cause is a browser page refresh or direct access to this page. We recommend you press your browser back button and begin again." I have closed HF opened and still getting. Any Idea what I should do?

Try clearing cookies maybe? Not sure

PerfectStorm - November 6, 2018, 8:00 pm

Yes good idea. did you try yet

Is this happening after captcha ? Its used to happen with me too

Nate - November 6, 2018, 8:26 pm

Whenever this happens to me it still posts it, i just have to reload the page, and my comment is there usually.

I don't know though, I'm not seeing your replies.

Maybe you were trying to do it during the 10-15 minute update today?

Try clearing your browsing history and if it still doesn't work, try using a different browser.
