I had a lot more goofy frags but sadly never uploaded them. Nothing is cheated btw, back then me and a friend went GE legit for the fun of it only to realize how not fun it was.

This is back when we made an Organner team and raped everyone on UNGL cup. Dont say I was never sponsored ROFL

EDIT: the silent kills are organner's "flawless" triggerbot fucking up xD

This is a replica of supex0's baking bread concept I made and released for free which became known as Rizlabot on d3scene and is the most used cheat ever after mph Leis from serenity. It does the exact same thing as baking bread minus the % concept.
