Thread: [Animating Your HF Avatar](#)

**Fortunate** - November 7, 2018, 9:15 am

Hey, I'm new to gifs and animating with photoshop, so I'm going to do free animated avatar requests.

Try to keep your requests simple, since the allowed size for HF avatars is 75kb.

You can request some effects or leave it up to me. Your avatar quality might suffer a little bit.

Rules:

- No default avatars
- Upgraded members get priority
- Keep requests simple.

Request form:

Code Link to your avatar/image:

Desired effect:

Other requests:

You can PM me for the queue.

Finished avatars ([Click to View](#))

If you want to use the following awards, please PM me so I can redirect you to their "holders".

You would need to be more specific. I only animate your avatars.

Not sure what I can do with this, a growing flower would take a bit more time, if you're like looking for an animation of it and not a pinch.

Yeah, if you want to use the other ones, I can compress them but the quality suffers. They might be like 0.5kb over the limit.

Desired effect: could you make the green cloth rotate colors slowly? (but not too slow) like a rainbow type effect

Other requests: also could you keep the background of the image transparent so it looks nice as an avatar

if this would be too hard / time consuming to pull off then dont worry about it

This good?

Damnit, it's just 34 frames long, but still too much. I'd need to compress it and make it smaller. I'll see what I can do for that. You decided if it's good enough after it.

Here's it after cutting every 2nd frame and a little bit of compression. It's way faster, but a sacrifice you might make.

Super weird to work with your avatar because it's a small image. Here's something, not sure if It's good.

It's barely noticeable.

I think it's not worth it to work on smaller picture avatars, since you can barely see detail.
