FUCK, I JUST BOUGHT AN XboX.

Considering this, it's pretty cool even though I don't play xbox much :]

So for the price of \$700, could we get this with 4 controllers? as like a partybundle deal?

Why is flashing so expensive? They usually sell flashing for 20 bucks at least i mean it isnt that hard...

ArmyyStrongg - August 17, 2010, 1:32 pm

yo have your controller dude to hit me up on AIM again and yal can basically start making it already

i want it to be a wired controller too

Non professionals do it in 10 minutes most. Unless its the newer versions of the lite-on. And there is no doing it better ? unless its the newer lite on xD

Flashing a disc drive is the same each time basically. I just feel your overcharging for it.
