Thread: [My Awards - Change Award Order](#)

Xerotic - November 8, 2018, 10:38 am

Today we are introducing a new extension to the MyAwards plugin - the ability to change your award order! Using this new page you can easily drag-and-drop your awards into the order that you would like them to be seen.

To change your award order please visit this page:

<https://hackforums.net/myawards.php?action=sort>

This page should work on desktop and touch devices. Simply drag the awards in the order that you want them appear and click "Change Award Order". There is a 100 Byte fee to change your award order and at this time all members should have access to this feature.

These changes are reflected on your posts, PMs, and when viewing your personal award page.

Please note that you must have at least 2 awards before you can change their order.

Enjoy!

you are also the only one with the black and blue diamonds, get the white diamond and have your top row be the diamonds then have the columns match the colors for the most part.

Omni will never give me the White Diamond. There's about 5 awards on that damn page I really want too.

Cammy - November 8, 2018, 11:10 am

Idk if the drag/drop system shows up as rows as well if you have more than 1 row of awards but I

think it would be very useful if that would be implemented if that's not the case. Or maybe a preview button which would show a fake post with the new award arrangement

Nah Omni just needs to make Alphabet awards for like \$150 each. Pick a letter per \$150 donated. That way people can spell out what they want but gonna cost a penny.

Literally using mobile. Inspecting element and dragging dropping awards to see how it looks on the postbit - they need a preview button.

Oh my lord I got the diamond. I am running on close to 70 hours without sleep. I need sushi but it doesn't open till 1 hour. Fml

Reason I thought I wouldn't get it is I am trying to go for other awards as there are only a few that I don't think fit me but that's not my call to make. I just don't want to try hard it because I don't want the award whore.

It would be dope, a word I don't use frequently - to spell out "H4CK" on profiles. But now there is so many possibilities with arranging them, wondering how some sort of secrets could be thrown into designs in the future.

I wanna see your profile read different things on different days/weeks.

Lavish Living - November 8, 2018, 11:23 am

idk if its possible since atm its all dynamic and shifts as you drag... but would be nice to have a swap option instead of insert on the page. just a small qol feature :p

Pyro - November 8, 2018, 11:24 am

Omni actually gave white diamond to him, lol, gratz

Biggy - November 8, 2018, 11:24 am

That's pretty dope. Not sure how I want to arrange mine. Guess I'll have to get creative.

For most people it wouldn't be an issue till they get more anyway - and once you have it set, it's fine for a lengthy period of time. I wouldn't mind a preview before saving though.

Omniscient must have finally removed you from the Dice award blacklist.?

#Skyline - November 8, 2018, 3:25 pm

Is a cool feature, but I prefer to keep my awards how I got them.

Rayner - November 8, 2018, 3:28 pm

When I get another award I will have the tough decision on deciding which one goes first, jk...

SIM-403479 - November 8, 2018, 3:29 pm

I hope this becomes a crew option too so we can rearrange other people's. If so...

Steve I'm coming for you.

Fiber - November 8, 2018, 3:42 pm

Oh my god yes, I remember when people where paying money just to move around their awards. Thank you.

Also small note on the page it states "Buy awards" isn't it supposed to be donate for an award?

Nate - November 8, 2018, 5:13 pm

Awesome feature, just reorganized my awards by color.

Totally worth the 100 bytes. First purchase with bytes, besides the slots :)

I guess you can always try a different rearrangement and if you don't like it, you can just revert back to the original one. (Granted it will cost you 200 bytes but _(?)_/_)

first things first, you gotta get omni to give you the white diamond like he did for robot, or get another GA, so you can have a full column of all purple diamonds :p or a white one in the top left and all the rest below it purple. then as far as the rest go.... good luck lol

And I think that's one of the bigger advantages. Members won't use the award order as an excuse

to not earn an award or donate.

btw, so far about 30 members have used the feature. Not too bad.

Evanescent - November 8, 2018, 9:50 pm

Great update. Will definitely going to use it if I get Gold Clover first and then the purple Clover.
And when the award buying feature finally gets implemented.
