Thread: [Zexi's Middleman / Escrow Service | Don't Get Scammed Ever Again | From 2%](#)

Zexi - November 9, 2018, 7:24 am

Please refrain from messaging me before both sides agree on using me as a middleman.

I've held over 50k on HF and that is only counting the over 5k deals:

Spoiler [\(Click to View\)](#)

Pricing

The price is 2%-5% of the amount in crypto if the value is over 100\$. The price depends on multiple factors (amount, the goods/service, time for completion and risk of something going wrong between the buyer and the seller)

If it's under 100\$ it's fixed 5\$ fee.

The middleman fee is non refundable.

You include the fee while you send crypto to me, i deduct the fee and send the rest to the seller once you have decided for me to release the funds.

BEWARE

Beware of fake skype (Only dealing via PM with Contracts):

<https://hackforums.net/showthread.php?tid=5111128>

Beware of fake discords:

<https://hackforums.net/showthread.php?tid=5912302>

Beware of fucking fake profiles. Always check the amount of B ratings on my profile:

<https://hackforums.net/showthread.php?tid=5908015>

Terms

I am not responsible for anything that happens outside of the initial deal, i am simply a middleman for funds.

I will NEVER middleman OFFSITE. Only via HF pms.

I also have the right to decline service for any deal.

The fee is non-refundable. I only middleman Crypto related trades.

If the buyer gets closed mid deal and the seller has no claim to the money, depending on the situation i will decide what happens with the funds.

I am not your personal wallet. Upon contract expiration you are obligated to provide me your refund address. Every 24h i hold the funds after the expiration of the contract i charge 1% of the full amount to hold the funds. The same applies when a party involved in the deal ignores my messages and fails to pursue a refund by resolving the issue between the two parties.

I reserve the right to change the terms at any time.

Vouches

I don't beg for uncontracted vouches on my thread. Once there is MM statistics i will use that, but for now i will use my B ratings:

If you both agree on using me as a middleman just include my UID(2394729) in the contract you will make between you two like this:

I've held over 50k on HF and that is only counting the over 5k deals:
[spoiler]

The price is 2%-5% of the amount in crypto if the value is over 100\$. The price depends on multiple factors (amount, the goods/service , time for completion and risk of something going wrong between the buyer and the seller)

If it's under 100\$ it's fixed 5\$ fee.

The middleman fee is non refundable.

You include the fee while you send crypto to me, i deduct the fee and send the rest to the seller once you have decided for me to release the funds.

I am not responsible for anything that happens outside of the initial deal, i am simply a middleman for funds.

I will NEVER middleman OFFSITE. Only via HF pms.

I also have the right to decline service for any deal.

The fee is non-refundable. I only middleman Crypto related trades.

If the buyer gets closed mid deal and the seller has no claim to the money, depending on the situation i will decide what happens with the funds.

I am not your personal wallet. Upon contract expiration you are obligated to provide me your refund address. Every 24h i hold the funds after the expiration of the contract i charge 1% of the full amount to hold the funds.

Great service! Please write me a PM, I would love to use it.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
