Thread: [Steam +rep Comment Bot](#)

Tactical Herpes - November 9, 2018, 5:47 pm

Does anyone know where to find one of these? I've found countless profiles with comments from several different accounts that are all within seconds of each other, level +rep comments. Youtube and Google didn't do a justice with finding anything unless I'm searching the wrong stuff

They do not provide comment on your profile service.

The site says it offers the service, but it doesn't actually work and I haven't been able to reach any staff/support to figure out the issue.

There are steam groups dedicated for swapping +reps, just join one of them.
